

BASE OIL SN 350 TURKMEN (group 2)

S.N	Description of index	Figure
1	Density at 20°C, g/cm ³ , not more than	890
2	Refraction coefficient at 20°C	Have no standard, is necessary
3	Kinematic viscosity at 100°C, sst, within	8-9.5
4	Pour point, °C, not higher than	-12
5	Flash point, °C, not less than	220
6	Viscosity index, not less than	95
7	Color by light, max-by astm, max/by conditional units of khc, not more than	1.0-1.0
8	Mass portion of sulfur, % not more than	0.03
9	Acidity number, mg koh by 1 g oil, not more than	0.05
10	Ash, % not more than	0.005
11	Mass portion of mechanical impurities, % not less than	0.005
